Gave some weekly lessons where we analyzed textbook positions and also organized chess tournaments.

Tempos Brilhantes — **September 2023 - June 2024**
Elementary Chess Teacher — *Braga*
Biweekly extracurricular chess class to primary school kids.

Technician in High-Altitude Work — **1 week**

Monitor, Diver Lanhoso Adventure Park — **2 weeks**

PUBLICATIONS

- Online Abstract Debugging. SLATE 2026 – A debugging framework that allows abstract interpretation to be applied on-demand, gaining precision at specific points of program analysis before obtaining the full static results. It allows the user to unroll loops and explore intermediate states where one would normally lose precision. Out of the Loop no More

PROJECTS

pocket-cube-solver pocket-cube-solver
- Haskell solution to the Pocket Cube from Justin with.

Chess-Heatmaps Chess-Heatmaps
- Represent chess moves as heat maps in Python.

QForms QForms
- QuickForms is a self-hosted local form generation tool designed as an alternative to proprietary services like Google Forms. I've used Flask and my Python module is on PyPI.

vscode-ipma vscode-ipma
- VS Code extension that shows a popup with a beautifull IPMA's weather map.

cbirds cbirds

- Python module demonstrating combinator birds in point-free style.

shipslogs shipslogs

- Python tool that simplifies keeping records of screenshots taken during events such as talks, meetings or online classes.

Instagram Puzzles Generator Instagram Puzzles Generator

- Automates generation of chess puzzle images published on my university chess club's Instagram.

chessredditstories chessredditstories

- Automated content creation that generates reels combining chess gameplay with Reddit stories using Python.

datalist datalist

- Implementation of all functions in Haskell's Data.List module.

hmusik hmusik

- Generating chord progressions with Haskell.

TECHNICAL SKILLS

Languages: Portuguese (fluent), English (B2 exam)
Programming: Haskell, C, C++, Python, Java, TypeScript, JavaScript, LaTeX, SQL, Linux, VIM, WebAssembly, Go, PostgreSQL, Machine Learning

---

AWARDS

- **2nd place:** SEI 2021 Hackathon (shipslogs)
- **1st place:** SEI 2025 Programming Competition

VOLUNTEER

Camerata Minhota **January 2023 - 2025**
Co-Founder and member of a Chamber Music group at University of Minho.

Coderdojo **January 2020 - January 2023**
Mentor

Recriativo, Núcleo de Estudantes de Engenharia Informática **2021 - 2022**
Collaborator

EXTRA-CURRICULAR
